

THE NEW YORK, CHICAGO AND ST. LOUIS RAILROAD COMPANY

File 23 LC.

Frankfort, Indiana.
November 29, 1954.

Mr. R. H. Kisser:

Engine 639 has been taken out of storage and placed in service, replacing engine 587. Tender was removed from 587 and applied to 639. Tender from 639 was applied to 587. This tender was originally from engine 512.

Tender #16 BA 5450 is now on engine 639.

Tender #10 BC 5283 is now on engine 587.

Engine 639 is now equipped with steam heat and signal
be shown on mileage report.

cga/d.

Less than a year before the 587 was donated to the City of Indianapolis, she swapped tenders with another preserved engine, the 639 in Bloomington, Ill. By the time she was retired she had acquired the tank from the 611.
